learn to draw!

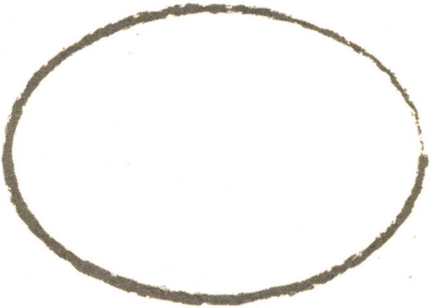
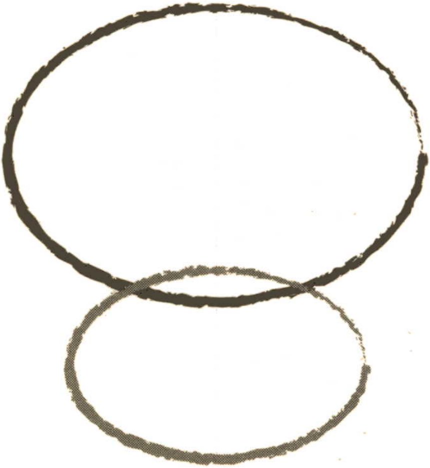
Torchic's a firm favourite in the Pokémon World office, and now you can draw him in seven easy steps!

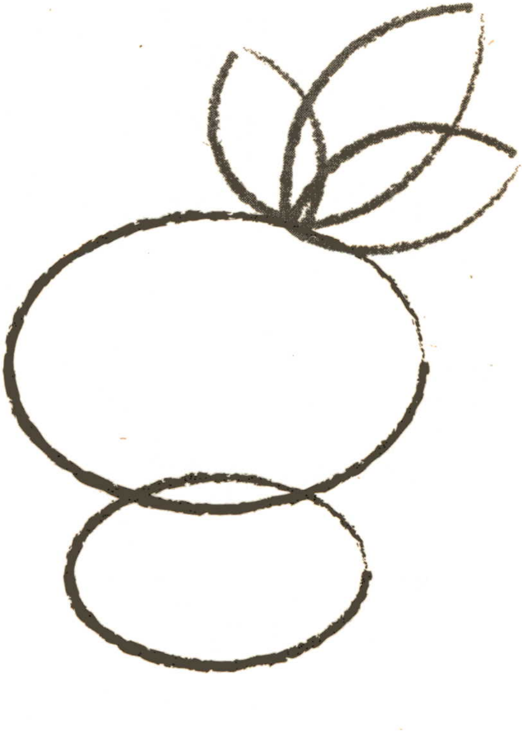
Start with a nice simple oval – this will be Torchic's head.



Then put another smaller oval under the first one, to make Torchic's body. See – we said this was easy!

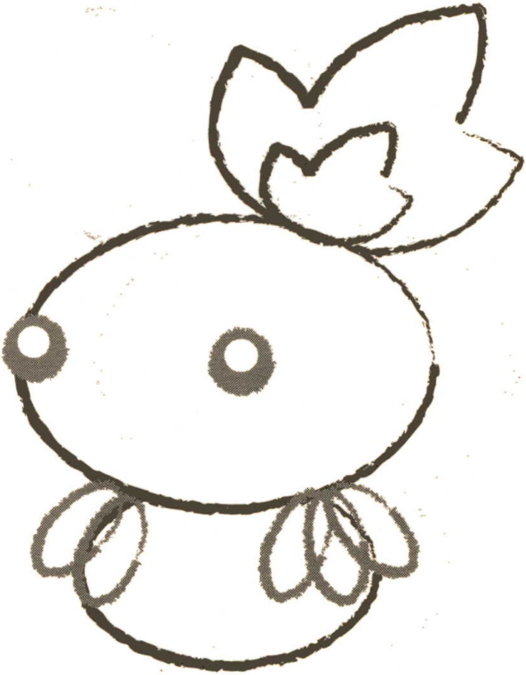


Three leaf-like shapes on the top oval will be Torchic's feathers.
Put them a little to one side, not in the middle.



Rub out the extra lines on Torchic's
head and feathers, then add a new line inside the feathers.

Draw some more leaf shapes to make Torchic's wings – two on one side and three on the other. Don't forget to add some eyes too!



Rub out the lines inside the wings and they'll look better already.
Remember to leave white dots when you colour in the eyes!

Just add a few lines for Torchic's feet,
and a beak to his face, and he's finished!
Now you can colour him in!
